Faculty & Staff Grants

In order to promote student engagement beyond the classroom, we're offering four different grants for faculty and staff to enable the development of new and revised programs, as well as collaboration between departments, offices, and academic and student affairs.

Priority will be given to grants in all categories that target Pell-eligible, transfer, underrepresented minority, and male students, the target groups of Experience by Design, and that propel the goals of the Quality Enhancement Plan (QEP), including engaging more students beyond the classroom and encouraging reflection on those engagements.
