College of Engineering and Computing

OPEN HOUSE

The College of Engineering and Computing hosts our Open House to attract children and teenagers to engineering and computer science fields. This event is an opportunity for kindergarten through 12th grade students to experience how interesting and exciting engineering and computer science can be. With over **40 interactive exhibits** that highlight the college's academic programs and research, students will have all of their engineering and computing questions answered as they dive deeper into different activities.

Parking Options

Please plan to park at Horizon Parking Garage located at 519 Main Street. Please park in the hourly parking. You will need to pay when you exit.

If you want to visit all the exhibits, allow for all 3 hours!

Free event! No ticket needed! Join our Facebook Event to learn more!
