

## **Information Technology News and Notifications**

April 16, 2013 Issue

### **Welcome**

Thank you for reading this first newsletter of the Division of Information Technology. The Division of Information Technology (DoIT) is about more than the day-to-day operations of maintaining miles of fiber optic cables and volumes of data. We are a part of addressing large-scale and strategic IT concerns for the University of South Carolina. This bi-weekly newsletter will showcase how the work of the DoIT improves the quality of education students at the University of South Carolina receive and the ability for our faculty members to conduct innovative research. We look forward to your feedback. Follow [this link](#) for a short video welcome.

### **DoIT Releases New Website**

The Division of Information Technology recently launched a new website that provides technology-related news, events and resources to help students, faculty and staff at the University of South Carolina. Please visit the website at <http://www.sc.edu/it/>.

### **Mid-Point Analysis of OneCarolina Indicates Project is on Target**

Stakeholders continue to see the benefits of the OneCarolina project, according to an analysis conducted by Collegiate Project Services last fall. [Click here](#) to read highlights from the report.

### **New Staff Joins DoIT**

Several staff members recently joined the DoIT. [Click here](#) to find out more information about the roles of Dr. Phil Moore, Andrew Grimball and Michelle Foster.
